From the Vice Chancellor's Desk

Mahatma Gandhi University, one of the six affiliating universities in Kerala, is the premier educational institution that strives to fulfil the higher educational needs of the people of Central Kerala. Since its founding in 1983, Mahatma Gandhi University has grown to become Kerala's leading, research-led university, known for excellence in teaching, research, and service to local, national and international communities.

The academic universe of the university consists of 18 University Schools/Departments, 8 Inter-University Centres, 10 University Centres, and 295 Affiliated Colleges. Our University has more than 2, 50,000 students of whom 20,000 are in postgraduate programmes. Our research programmes range across all disciplines and we are world leaders in such fields as Nanoscience and Nanotechnology, Environmental Sciences, Social Sciences, Biosciences and International Relations. Interdisciplinary teaching and research have been the University's first and foremost distinctive feature. This is in response to the worldwide trend of embracing non-conventional areas of knowledge, whereby disciplines move closer to one another across physical, natural and social sciences. Such a great deal of emphasis given on interdisciplinary teaching and research enables the University to generate knowledge beyond disciplines and across interfaces, which is strikingly fresh, regenerative and convergent.

The web-enabled University Library with its large collection of books, journals and e-journals as well as the 'Online Theses' and 'Digital Library' that provides open access to its collection of digitalized PhD dissertations are some of the notable achievements of the University during the last few years. This is the only University in the country which has made its Doctoral Dissertations Open Source for Worldwide Access. INTUTE has identified the University as the best in the country in putting its knowledge share as Open Source. This has earned the University the Best Institution of E-Learning Facility Award instituted by the State Government. Recently, the entry of the University's Publications Department to knowledge book publishing, the rejuvenation of various Chairs in the University Departments, initiation of the Campus Area Networking, development of ICT supported teaching (through smart classrooms) have enabled Mahatma Gandhi University to assert and rearticulate its primary function as an important knowledge service provider in the country.

The achievements outlined here have placed the University quite prominently on the national academic map. Today Mahatma Gandhi University is ranked first in the State, third in South India and thirteenth in the whole nation by CSIR in terms of the intellectual productivity of the faculty. NISTADS has ranked the University nineteenth in terms of the h-Index of the Science Faculty.

DST has ranked the University 8th among the 29 Universities with DST recognition under PURSE in the Country. The University has successfully introduced the Choice Based Credit and Semester System (CBCSS) and Grading System in the affiliated colleges; the Kerala State Higher Education Council (KSHEC) cites this as constituting a Model for other Universities in the state. Ours is the only University with software autonomy for computer automation and Campus Area Networking, and the only affiliating University in the Country with a Centralized Admission Procedure (CAP) for admission to both UG and PG Programmes. The UGC cites Mahatma Gandhi University as a national model for New Initiatives. The University is top in bringing Nobel Laureates as Scholars-in-Residence under the Government-sponsored Scheme of ERUDITE. The University has undertaken state-level coordination of two scholarship schemes introduced by the Government of Kerala, the ACQUIRE and *Tanma* for nurturing social science brilliance and literary talent respectively.

We have provided the above summary of the major landmarks in the University's academic progress in the past three years in order to underscore the state of academic vibrancy that exists today in Mahatma Gandhi University. The University is re-accredited with 'A' Grade and CGPA 3.24 by NAAC. In the second overall ranking and third sector-wise ranking of the National Institutional Ranking Framework (NIRF) introduced by the Union ministry of human resources development, MG University has made a remarkable stride to the 52nd position this year overall and 34th position among the Universities of the nation. The University has also secured the prestigious Chancellor's award for the best University in the state in the years 2016 and 2018.

As we look to the future one thing is certain – knowledge will be a key resource and will be highly sought-after in and around the world. It is equally important that we keep close to our wider communities of interest within India and internationally. This will help to ensure the ongoing relevance of our academic programmes and the continued excellence of our teaching, learning and research. The Common Admission Test for admission to various teaching Departments/Schools of the University is conducted to provide admission to the most talented students to the University campus. We provide our students with excellent learning and placement in Indian and global industries. All aspiring students are invited to experience the difference of a visionary University, its world-class research and academic environment, hi-tech laboratories and classroom facilities.

I look forward to welcoming you to Mahatma Gandhi University!
