PREFACE

As part of MTTM curriculum and in order to gain practical knowledge in the fields of research I was required to-do a research and make a dissertation report based on it. The basic objective of doing this project is to gain in-depth knowledge about the implementation of tombstone tourism in Dutch cemetery Kochi with special reference to Jerusalem and Egypt.

In this report I have include different observations done during the period of study and made necessary suggestions regarding the study.

In short, I would like to thank my faculties of the French Department for introducing me to this great opportunity in which I have developed myself both academically, professionally and socially.
